

2010 Annual Report

MISSION To identify and address the needs of Caregivers through advocacy efforts and collaboration of a broad coalition membership in order to improve the overall quality of life for Caregivers, their families and the community.

The Caregiver Coalition of San Diego represents the community efforts of more than 3 dozen agencies –private, public, professional, non-profit, for-profit- that serve families caring for their loved ones. Our collective mission, expressed above, is one of support, education, and advocacy. This report provides details of group activities in 2009, which in addition to educational conferences included the formation and launch of a Corporate Outreach Committee targeting Family Caregivers who work.

Chairs Message

2010 – A year of reaching and serving caregivers through community education programs, worksite programs for working caregivers and our website. It begins with a focus on our passion, helping caregivers become better equipped to fulfill their commitments to others and themselves. It functions effectively with our many leaders using compassionate communication in energizing our program volunteers. It is a pleasure to learn and serve with this group of professionals. Read the reports and look for ways to apply your talents, we have more to do. We are a coalition that is on the move as evidenced in part by the increase in members voting to fill our 2011 steering committee. Thank you for contributing and your support.

Grant Keefer, Chair 2010

My fellow Caregiver Coalition members, as we reflect on the changing of the decades, I am struck by the momentum we've created and the sheer number of caregivers we assisted in 2010. By working together toward a common goal we have been able to further our mission beyond what even we had envisioned. Not only does this report show where we have been, but also the promise of what is to come by combining our talents, our agencies, and our passions. Thank you to each and every one of you for your dedication to improving the Coalition. I look forward to working with you in the future.

Jennifer Marsh, Chair 2011

Conferences

For more than a decade, the Caregiver Coalition has produced practical workshops "**Finding the Balance**" to support family caregivers with practical instruction and information. Workshops include topics from bed care and transfers to self-care, emotional healing, physical activity, and legal and financial guidance. Provided by topic experts, the conferences are produced in different communities each year, so caregivers can attend without long drives. (*Appendix A: Flyers*)
